

Lunch-and-Learn Program

Permeable Pavement Do's and Don'ts

Program

Permeable pavements, which benefit the land and our environment, can be challenging to build correctly and maintain for the long term. Join us to learn about soil analysis, base (and/or sub-base), geotechnical fabrics/grids, bedding material, edge restraints, wearing courses, and joint fill selection. Highlights include:

- ⌛ Myths of Segmental Permeable Pavements (SPP)
- ⌛ Care of the wearing course
- ⌛ Winter expectations for the system

Learning Objectives

- ⌛ Proper care of SPP
- ⌛ Life-cycle cost analysis
- ⌛ Terranean and subterranean drainage requirements

Presenter

Peter "PaverPete" Baloglou is the Sales Coach/Director of Education and Information for Techo-Bloc. Pete's 25-year manufacturing and distribution background is grounded in his ability to take Hardscapes projects from inception to completion...Pete knows how to build jobs. Additionally, Pete consults on job pricing, marketing, sales processes, and the construction of patios, walks, drives, pool decks, permeable pavement, and retaining walls. Pete earned his Bachelor of Arts degree in accounting from the University of Maryland, and is a published author. He has been a guest on numerous home improvement shows including Hometime, Mancave, Hometeam, and Extreme Makeover. Pete is an Interlocking Concrete Pavement Institute (ICPI) and National Concrete Masonry Association (NCMA) certified instructor with experience in nearly 40 states and 5 countries.
